Hi Guys, I hope you had a great weekend.

I sent Barry several emails about the need for a call with CSC before I leave the 21st. Here is some supplemental information for HRS package needs.

Barry has two removal assessment reports referenced in the Upper Cement Creek HRS package. We need complete copies of the final reports to reference in the updated HRS package. Steve indicated that the Mogul may not be final, but it would be helpful to have documentation that indicates what we do have, and the back up information to show we have data that are of known and documented quality. I need you two to get together to make sure Barry has the best/final versions for the next package submittal.

Thanks!

Sincerely,

Sabrina Forrest

Sabrina and Richard,

I believe we must have gone through this exercise for the FOIA from Todd H. The attached is what I believe we have for a Mogul Report. We may need to confirm with START, but I recall that this was not finalized in part because we were generating some more data in the future with adit samples. I believe this is the most current version. Can we see what was provided to Todd in response to his FOIA because that is probably a good indication. I have hard copies of the Final Red and Bonita field activities report - sending your way Richard.

I am out Mon and Tues, and in for Wednesday, and then gone until 12/27.

Steve
